**NEWSLETTER  
EDITOR**

**EXPLORING  
THE OTHER  
SIDE OF  
MYSELF**

**YOU CAN'T USE UP CREATIVITY  
THE MORE YOU USE  
THE MORE YOU HAVE.**

Creativity allows us to view and solve problems more openly and with innovation. Creativity opens one's mind. Being the creative executive and the newsletter editor of Ignited Youth Leaders Club, helped me develop my personality and creativity. I have always had keen interest in the field of drawing and craft but editing the poster and doing graphics was not really my forte, but IYLC has given me additional exposure in handling graphics, social media and making posters. The role of creative executive is to publicize the club and to reach out to more people through social media accounts. The role also involves making all the meeting posters, the agenda, word of the day and most importantly the newsletter. Each of these really makes me gain a lot more knowledge and wisdom. Making the word of the day really helps me increase my vocabulary and explore the English language. It is said that sometimes we find motivation and sometimes motivation finds us and in my case the club has given me the field to find motivation and explore myself. It takes courage to stand and deliver a speech in front of an audience but this club has really boosted my confidence and helped me get away my fear of public speaking and the best part is I can see myself improving and I am happy to be where I am .

## FROM THE DESK OF THE CO-FOUNDERS

### CHAHAT AGARWALL

**“Old minds have the power to create history; young minds have the power to change the history”- P.S.JAGADEESH KUMAR**

Welcome to the first ever issue of the newsletter **“IGNITED MINDS”**. We have completed one year of our new journey- challenging, exciting and enriching. We started with a family of only 6 members and I feel proud to share that since then the family tree is only growing. Each day was an adventure filled with new experiences, learning for all of us, and a chance to constantly widen our horizons. We believe in a joyful experiential learning system wherein, each child is encouraged to participate wholeheartedly. It is a platform which focuses on all over growth of the child. It helps the child to step out of their comfort womb and face the fear with confidence. We at **IgnitedYOU** provide the students with a framework for restructuring their existing skill sets and imbibing Personality Development, Communication, Team Building, and Personal Impact and Effectiveness skills to improve the practical understanding of self and the environment. We believe in nurturing young minds to bring in them the much need human revolution, develop the conviction of victory and travel the path of perseverance. I feel deeply overwhelmed not only for the memories that we have created being a family but also for the wisdom and knowledge that we have gained from each other in this short span of time.

### NOOPUR KESHAN

Dear IYLC Family,

Please accept my sincere wishes and greetings. I hope this newsletter finds you in best health.

COVID-19 for many was a curse but for us it was certainly a blessing in disguise.

We **learned, unlearned and re-learned** the art of staying ignited. As a co-founder my heart is filled with joy and honour as we are to complete one year of our journey.

Robert Heinlein has very rightly said, **“When one teaches, two learns”**. Being actively associated with IgnitedYOU in its initial months I can vouch that I have learned more than what I taught. To understand perspectives and thoughts of both young and old on life transforming topics like behaviour, motivation, time management and communication have broaden my horizons and has given me a much needed clarity on how to live happily and cheerfully. And now to see the young chaps acing in front of the camera gives me a sense of pride for starting a movement of staying ignited.

As I pen down, I wish nothing but the best for you and your children.

Long live IYLC.

Stay happy, stay Ignited!

**THE CHAIRPERSON**

## **THE JOYFUL JOURNEY OF SELF IMPROVMENT**

***What you do makes a difference, and you have to decide what kind of difference you want to make." - Jane Goodall***

From joining Ignited youth leaders club as the member and then getting a chance to serve the club as the chairperson has been an amazing journey. It is my extreme pleasure to be a part of the Ignited youth leaders club. This club has taught me how to smile, enjoy and learn altogether.

Be it from the exciting fun meetings to a meaningful movie or book review meetings to the knowledge full training meetings. This club is not only a club but also a family for me. This family ensures that each and every child participate, enjoy and learn not only during the meeting but in life too. After joining the club every Sunday for me has become the most productive day of the week because it helps me to better myself. This club not only helps in improving the speaking skills but also helps us to improve our overall personality and also become better leaders. The role of a chairperson is to lead the club from the front, I as the chairperson learned how to lead and communicate with the members, organise events and also how to lead a team. I have understood that "a leader is the one who knows the way, shows the way and goes the way". The mentors here, Ignited Chahat and Ignited Noopur are teaching us like we are their buddies which is helping everyone to open up in each meeting. Being the chairperson of the club I would just like to say that the biggest gift this club has endowed on me is my fellow Ignited youth members who are extremely talented, friendly and now is my chosen family.

**I was a shy tiny bud when this weather change came in my life,  
IGNITED YOUTH LEADERS CLUB**

**"Person who never made mistake never tried something" - Albert Einstein**

Starting from just a very introvert member of the club to serving as the chairperson and the education executive, it has been an experience full of challenges, learning, knowledge and wisdom. To think of myself from where I started it was a story telling competition where I was disqualified to exceed my time. That's when I got to know about Ignited Youth Leaders Club which sounded to be like a new platform which can help me grow as a person. So I decided to take a step ahead in life and became a part of this club. It is my utmost pleasure to be a part of this club which makes learning an enjoyable experience all together. I never thought of myself to be what I am now because public speaking was one of my biggest fear. This club is not only a club or a class but a family which makes learning fun and so much more interesting. I was a bud and never thought that I will bloom into a flower one day, but I am overwhelmed to be a flower now. I have been watered so well by the club mentors and members that this flower is coming out beautiful. This club has not only given me confidence and knowledge but it has made me a better person I can be.

## POWER OF WORDS

**"Words have energy and power with the ability to help, to heal, to hinder, to hurt, to harm, to humiliate, and to humble." -Yehuda Berg**

There are people who use their words well to their advantage and on the other hand there are people who don't know the power of words and I was one of them. Ignited Youth Leaders Club plays a very important role in my life because it has taught me the real power which not only exist in me but which exists in all of us. I was a girl who was not very keen or enthusiastic about public speaking but listening to my friends talking about IYLC made me interested in it. After I joined IGNITED YOUTH LEADERS CLUB it helped me improve my speaking skills, confidence, body language, voice modulation and so much more. It also helped me to write a better speech with proper starting, meaningful body and with proper ending. I then realised that if words are used effectively it can just do wonders. I am very thankful to IGNITED YOUTH LEADERS CLUB for helping me evolve as a better communicator, speaker, leader and most importantly a better version of myself. Thank You for making my life simple by teaching me one major thing that *WORDS DO HAVE POWER.*

## TEAM WORK MAKES THE DREAM WORK

**Teamwork is the ability to work together toward a common vision**

and the common vision for us in IYLC is to help each other grow into extraordinary individuals. I have been a part of a lot of other clubs, personality development sessions, public speaking platforms but this club has something out of the box which makes me feel motivated and different about myself. No wonder I love this club and one soul reason for it is that this club has a **two way learning**. The age group to be a part of this club is vast that is 10-18 years which makes this even more interesting because I get to learn so many things from my younger members and also from my mentors and members who are elder to me. Here we are a team, a family who does everything together. Our meetings are generally divided into three segments and each segment is based on the team work. In each meeting we have a segment known as the **breakfast of the champions** which is my favourite as it helps us to know where we stand now and helps us to develop ourselves in the right way. **Alone we can do so little, together we can do so much.** --Helen Keller I have heard this quote but never knew that its true. Thank you IYLC for making this happen.

## THE NEW ME

I can't say 'thank you' enough to express how grateful I am for joining Ignited Youth Leader's Club. This club has made such a huge impact on my life. I would not be the person I am today and I know that this club will keep inspiring me to become an even better version of myself.

Before I joined this club, I was very afraid and nervous for no reason. I was so rolled inside my comfort zone that to get out of it was my worst nightmare. Being an introvert it was not easy for me to stand and speak my heart out but trust me this club has given me a new life. I can feel the new me now. A girl who is free from all the fear, free from the nervous break downs and free from the comfort zone. I am now ready to conquer my life, ready to write my own destiny and ready to fight with all my fears.

This club has taught me that **"Nervous and Excited are the same sensation. Negative vs Positive Stop saying you are nervous and start saying you are excited."**

I am so thankful to IYLC for giving birth to THE NEW ME.

By Reyansh Modi

## THIS IS JUST THE START

To learn new things in life has always been my goal. I have always wanted to excel in everything I do and if by chance I am not the no.1 it really use to demotivate me and use to make me sad and annoyed. I am sharing this with you all because I am not the same anymore. Ignited youth leaders club has taught me one very important lesson in life that is I should focus on who I am and should compete with myself only. I would just like to thank the IYLC family for teaching me the most important lesson in life, for helping me become a better person each day. **Now my goal is not to be better than anyone else but better than I used to be.....**

## Vis-à-vis

**Digital communication is completely different from in-person, face-to-face conversations. One will give you surface insights, and the other really gives you depth - Joe Gebbia**

It was a bright and windy Sunday Morning. I woke up excited as I was to attend the holi special physical meeting of IYLC for the first time. When I arrived the place I was so grateful to meet my mentor Ignited Chahat. As it was my first physical meeting, I was having butterflies in my tummy. I was a bit nervous because I was playing the role of the emcee for the meeting but trust me after meeting all the members of IYLC it was so easy for me to perform. It seemed like I was talking to people I have known for ages. We played small but fun games in between which helped everyone to mix well with each other. The unprecedented pandemic had made us a slave of the digital world. *Stepping into the normal life and getting a chance to interact with my fellow club members face to face and gaining the true essence of IYLC CLUB that is human touch was one of the experience.* This club is not only a public speaking platform but is truly a package which helps individuals to grow as responsible and knowledgeable person. I could already see myself change as a person after I joint the club but this physical meeting was a completely different experience and I can see myself steeping out of the thick walls of fear of public speaking. Thank you IYLC for this lifetime experience.

IYLC made me self independent. It helped me to loose Mic phobia and now I have gained the confidence in speaking among the public. It helped me a lot and I would also suggest other to join this platform as soon as possible.

#### MY MOTHER

She is a treasure,  
 She loves me in full measure.  
 She has made me courageous and bold,  
 My character she did mould,  
 I love and cherish her,  
 I'll obey her forever.  
 She loves and cares for us,  
 She is very nice and fine,  
 She does not allow us to fuss,  
 I'm glad she is mine.

### MY EXPERIENCE WITH IYLC

When I first came to know about this club, first thought that came in my mind was to join this enchanting group. And guess what?... I was right. What a warm welcome. I was sure that I was at the right place. I appreciate the initiative Ignited Chahat has taken because everyone gets ideas but very few can implement them but Ignited Chahat has made it, and here we are today part of the most fun loving club. She makes sure that we step out of our comfort zone and bounce back as Ignited Youth. I was very excited for my first meeting; it is the best way to meet people and to feel the change in yourself. Now Sunday's are no more boring because we have the Ignited Youth."This club is for members only. But once you join, membership lasts for an eternity.  
 " Live Long IYLC!!!

**I CHOOSE TO  
BE HAPPY**

I meet you everyday and I hope that I get up tomorrow without you, to see myself slay.

Why don't you leave my sight , don't you know I hate your light.

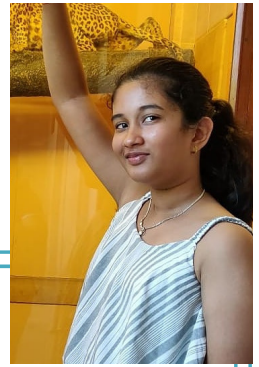

I want to get rid of you because all you do is make me feel horrible blue.

I want to always look the brighter side of life because I trust the angel that lies inside.

Oh dear angel , thank you for finally meeting me ,

Without you my life was sad and was not wanting me to be.

I now choose to be happy because I have a family who will never let me lie snappy. Thank you my chosen family IYLC for being by myside always because of you I have left my fears in the midway to hallways.
